

KIWOCLEAN EL 8900 2-phase cleaner/concentrate (3:1), metal stencils, misprints 25 l

KIWOCLEAN EL 8900 from KIWO is a powerful 2-phase cleaner, specially developed for the effective cleaning of metal stencils and misprints in electronics production. The concentrate, which is used diluted in a ratio of 1:3, is characterized by its high cleaning power and reliably removes residues, solder paste or printing errors without attacking the treated surfaces.

The mild odor is particularly practical, making it pleasant to use in workshop and production environments. KIWOCLEAN EL 8900 is ideal for automatic cleaning systems and ensures fast, thorough and efficient cleaning of metal stencils.

The 25 l canister provides sufficient quantity for continuous cleaning processes and ensures economical use in industrial production environments. KIWOCLEAN EL 8900 combines reliable cleaning, easy handling and safe application - an indispensable tool for

professional electronics and stencil technicians.

- high cleaning power
- mild odour
- concentrate 1:3
- for automatic cleaning systems

Item no.	WL60025
Model	KIWOCLEAN EL 8900
Manufacturer	KIWO
Manufacturer article no.	23240 553
GPSR manufacturer data	KISSEL + WOLF GmbH In den Ziegelwiesen 6 DE-69168 Wiesloch www.kissel-wolf.com
Sales unit	1 jerrycan
Content unit	25 l
Incl. battery	no
ESD compliant	no
