

## Close-up lens NZ.8920, 2x magnification, for Euromex ESD stereo microscopes

---

---

The attachment lenses extend the range of total magnification and field of view. The attachment lens NZ.8920 with 2x magnification has a working distance of 34 mm.

With the NexusZoom stereo microscopes from Euromex you can examine your samples with the highest precision. The microscope generates two- and three-dimensional images for even the most demanding microscopy applications. The ESD-safe zoom microscopes are perfect for inspecting any surface or for observing larger objects in the electronics industry. With additional objectives and attachment lenses, magnifications from 3.3 to 180 times can be achieved.

- Total magnification: 13.0-110.0
- Field of view: 17.7-2.1 mm
- Compatible with NexusZoom P-ESD, -U-ESD and B-ESD models
