

## ESD bags, pink, dissipative, 76 x 305 mm, 100 pieces

The pink ESD bags from SafeGuard are the ideal solution for the safe packaging of sensitive electronic components in an ESD protection zone. With a size of 356 x 76 x 76 mm and made of polyethylene, they offer sufficient space and protection. The bags are printed with important information such as the ESD and recycle symbol, the lot number and the SafeGuard logo. Thanks to their dissipative properties, they ensure a safe packaging environment in the EPA. There are 100 of these amine-free ESD bags in a pack. They are not resealable, but thanks to their sealability they still offer safety during packaging. Ideal for professional packaging of electronic components.

Item no.	WL60772
Model	SG-BE-ROSA-ABL-VPE
Manufacturer	SAFEGUARD
Manufacturer article no.	SG-BE-ROSA-ABL-VPE-76X305

Products for the electronic industry

## GPSR manufacturer data

Weidinger GmbH  
Hertha-Sponer-Str. 1a  
DE-82216 Gernlinden
