

## ESD bags, pink, dissipative, 50 µm, 102 x 152 mm, 100 pieces

The pink ESD bags from SafeGuard are the ideal solution for the professional packaging of products within an ESD protection zone. With a size of 102 x 203 mm, they offer sufficient space and primarily serve as dust protection. The bags are made of polyethylene and bear the ESD and recycle symbol as well as the lot number and the SafeGuard logo. They are amine-free, weldable and permanently dissipative. One pack contains 100 of the pink bags with a film thickness of 0.05 mm. The properties of the packaging are dissipative, but they are not resealable. These ESD bags comply with ESD requirements and therefore guarantee safe protection for your products in sensitive environments.

- Polyethylene pink with ESD and recycle symbol, LOT-No.
- amine-free, weldable, permanently conductive

item number

**WL60777**

model

SG-BE-ROSA-ABL-0,05

Products for the electronic industry

manufacturer	SAFEGUARD
manufacturer item number	SG-BE-ROSA-ABL-0,05-152X102
GPSR manufacturer information	Weidinger GmbH Hertha-Sponer-Str. 1a DE-82216 Gernlinden
width	102 mm
height	152 mm
order unit	1 PU
content unit	100 piece
