TM Mobile workstation ESD incl. ESD setup, suitable for TM Robot

sample application

The workstation with integrated work area. The control system is stowed inside the workstation, and is easily accessible through side openings. Optional with built-in PLC, compressed air connections and TP-100-1 TM kit. Suitable for TM5, TM12 and TM14.

Contained modular robot cells can handle entire processes or can be integrated into production lines for the execution of sub-processes. Flexibility due to the compact design is combined with safety in various fields of application, such as soldering processes at high temperatures.

Feel free to contact us, together we will develop a suitable solution for your application.

TM Mobile Workstation ESD incl. assembly - robot arms and other accessories from TM Robot are not included and are available separately.

Item no.	WL61029
Manufacturer	TECHMAN
GPSR manufacturer data	Techman Robot Inc. Staalindustrieweg 21 NL-2952 Alblasserdam www.tm-robot.com
Width	800 mm
Height	1900 mm
Depth	630 mm
Sales unit	1 piece
Content unit	1 piece
Tare weight	150 kg
