

W14024G soldering tip for WS140 desoldering tweezers, 24G 3 mm

The W14024G is specially designed for stripping 24 AWG (0.51 mm) high temperature cables made from thermostable materials such as Teflon*, Kapton*, silicone rubber, etc. The self-centering design provides perfect tip alignment so that insulation can be removed without damaging the conductors.

This tip works with the WS140 Precision High Temperature Stripping Tweezers, which has an adjustable stripping length to select the stripping length.
