

## SET jaws 150 mm

The plastic jaws sit perfectly on any vice with steel jaws due to their double magnetic bar. They protect sensitive components from scratching or damage. Due to the longitudinal and transverse grooves, even round objects can be clamped securely. If the grooves interfere with clamping, the smooth surface of the other side can also be used. The aluminium jaws also protect the parts to be machined, and the longitudinal and transverse grooves allow raw or flat material to be fixed securely and firmly in the vice.

- suitable for vice jaws width 150 mm, content: article listing see below
- with magnetic strips or magnetic points
- for clamping of parts with scratch sensitive surfaces
- plastic yellow glued with felt, cork, leather. Aluminium with rubber
- FELT = synthetic fleece fibres (grey) very robust durable stable felt, lint-free
- LEDER = hard-wearing, optimal wear behaviour, water drop resistance
- CORK OAK = very elastic, poorly combustible, natural and sustainable raw material
- further jaws search field entry 9-900
- approx. dimensions 430 x 390 mm
- weight 1056 g

item number	<b>WL63645</b>
manufacturer	BERNSTEIN
manufacturer item number	9-900-SET-150
GPSR manufacturer information	BERNSTEIN Werkzeugfabrik Industriehof Trecknase 1 DE-42897 Remscheid www.bernstein-werkzeuge.de
scope of supply	SET jaws 150 mm consisting of: 9-900-SET-0 Schon jaw plastic bag grey/black BERNSTEIN 9-900-S4150 Protection jaws cork/plastic 150mm yellow, with magnetic bar (pair) 9-900-S5150 Clamping jaws leather/plastic 150mm yellow, with magnetic bar (pair) 9-900-S6150 Protection jaws felt/plastic 150mm yellow, with magnetic bar (pair) 9-900-S7150 Protection jaws plastic 150mm yellow, with magnetic bar (pair) 9-900-S8150 Protection jaws aluminium/rubber 150mm, with magnet (pair) 9-900-S9150 Clamping jaws alu-prisms 150mm, with

	magnet (pair)
