

Clamping jaws plastic 150mm yellow, with magnetic bar (pair)

The plastic jaws fit perfectly to any vice with steel jaws due to their double magnetic bar. They protect sensitive components from scratching or damage. Due to the longitudinal and transverse grooves, even round objects can be clamped securely. If the grooves interfere with clamping, the smooth surface of the other side can also be used.

- suitable for vice jaws width 150 mm
- with magnetic strip or magnetic dots
- one smooth side for clamping parts with scratch-sensitive surfaces
- other side with prisms, grooves for clamping oval and round parts
- PLASTIC = durable, hard-wearing, water and oil resistant, abrasion resistant, insulating
- made of plastic in yellow
- Packing unit pair
- further jaws search field entry 9-900
- approx. dimensions 150 x 28 x 7 mm
- weight 112 g
