

## Replacement jaws leather/velcro 50mm (pair)

Dual Lock System

The 50 mm jaws consist of a leather cover with pressure lock and are designed to be attached to our ball-joint vice 9-205-K. The high quality leather cover protects sensitive parts from damage.

The high quality leather covering protects sensitive parts from scratches or damage. The pressure lock is a kind of Velcro tape with very stable and precise fixation. By simply pressing together - whereby small mushroom heads interlock - a very firm, but detachable connection is created. The pressure fastener can be crossed, staggered or overlapped. It provides a permanent mechanical fastening that will not loosen even with sustained jarring movements.

In contrast to a Velcro fastener, this quickly releasable connection is characterised by high shear strength. The self-adhesive backing adheres immediately with excellent final tack, even at high temperatures and on rough surfaces. LEDER = hard-wearing, optimum wear behaviour, water drop resistance. PRESSURE SEAL = over 1.000 sealing cycles, material polyolefin, colour black, adhesive acrylate (VHB), temperature resistance continuous -30 to +70°C (short term +95°C), food resistant, moisture resistant, UV resistant, ageing resistant,

chemical and plasticizer resistant, dynamic tensile strength approx. 21 N/cm<sup>2</sup>, max. static tensile strength and shear strength approx. 160 g/cm<sup>2</sup>, flammability test according to F.A.R. 25.853 (b-2) passed. Storage unprocessed 12 months shelf life at 20°C storage temperature and 50% relative humidity. Dual Lock is a patented pressure lock system from 3M (certified to ISO 9002).

- Quick-change vice jaws suitable for 9-205-K with jaw width 50 mm
- flexible pressure lock, connection for re-release
- firm, stable, precise and accurate connection
- for clamping parts with scratch-sensitive surfaces
- LEDER = hard-wearing, optimum wear behaviour, water drop resistance
- Leather coating brown
- Packing unit pair
- extra accessories Article: KLETT-K050x25##

Dual Lock pressure lock, self-adhesive 50x25mm (VE10)

- approx. dimensions 50 x 25 x 6.7 mm
- Weight 11 g

item number	WL63657
manufacturer	BERNSTEIN
manufacturer item number	9-900-K50-LEDER
