

Upgrade Kit MOVE for ZAP digital microscopes

For current ZAP microscopes, it's possible to add a MOVE Power box and get access to advanced features, apps and easier documentation processes without purchasing a new microscope.

If you want to maintain the flexibility of the ZAP but need the advanced features, apps, presets and documentation options of the TAGARNO TREND and PRESTIGE, you can purchase a MOVE upgrade kit instead of throwing out a perfectly good TAGARNO ZAP. The MOVE Upgrade kit will transform the ZAP microscope to an agile and customizable microscope.

The option of adding the MOVE Upgrade kit at a later stage also allows you to purchase a ZAP as your first microscope and upgrade it later if your processes or needs change. Different upgrade processes are needed depending on your ZAP version.

item number	WL63680
manufacturer	TAGARNO
manufacturer item number	308100
GPSR manufacturer information	TAGARNO AS Finlandsvej 2 DK-8700 Horsens www.tagarno.com
order unit	1 piece
content unit	1 piece
ESD safe	no
