ESD Sneaker QO 500 ESD natural leather White 1011366, normal, 43

The QO500 occupational shoe from BIRKENSTOCK with a replaceable footbed provides secure support and relieves pressure on your feet so that you can stand, walk and run comfortably for many hours a day at work, even in a challenging environment. The QO500 presents itself as a simple, modern sneaker with 6-hole lacing.
This ESD version was specially developed for people who work in the microelectronic field or with high frequency technology. ESD stands for Electro Static Discharge. These shoe models actively ensure a permanent gentle discharge of their wearer. The antistatic elements in the sole compensate for potential electrical voltage differences between humans and the work environment by permanently "grounding" the feet and can be identified by the circular yellow emblem. Warning: The ESD range is up to 35 MOhm, so it does not have an insulating effect!
The anti-slip as well as oil and petrol resistant outsole also provides energy absorption in the heel area. The upper material is made of water-repellent smooth leather (WRU) and

offers antistatic protection.
The shoe is certified according to EN ISO 20347:2012 and meets the requirements of protection class O2.

• Replaceable, anatomically shaped cork microfibre footbed
• Material: water-repellent smooth leather (WRU)
• Cover sole: microfibre
• Sole: nitrile rubber (SRC)
• Details: slip-resistant and oil & petrol resistant outsole (SRC, FO); energy absorption in the heel area (E); ESD protection (A)
• Certified professional shoe according to EN ISO 20347:2012
• Protection class O2
