

Twist 2 LED task light

The Twist 2 has an ergonomic design and is easy to carry with one hand. The gray stripes on the sides increase grip. The power consumption is low and thanks to the rotatable Easy Twist Shade™, the light can be directed exactly as you need it. The three-stage dimmer switch can be used to adjust the brightness of the daylight LEDs to the task at hand. The high-quality LEDs of the Twist 2 with a CRI value of over 95 offer high contrast and excellent clarity. This makes it easy to see small details and colors are faithfully reproduced.

- Lightweight and foldable
- Rotatable shade for precise positioning of the light
- 3 brightness levels
- High quality LEDs with CRI 95+ for true colour rendering
- Daylight LEDs - easy on the eyes and improve contrast

Item no.

WL69071

Products for the electronic industry

Manufacturer	DAYLIGHT
