

Pliers set Classic, MagicTips® Circlip pliers 4-pcs. (34708)

- Lowers your costs: Prevents damage caused by lost circlips in the work area
- Saves time: Safe and sturdy grip on circlips
- Careful installation is essential for circlips to ensure that they are fitted securely and damage due to lost rings is avoided in the work environment. Circlip pliers with MagicTips® are the right choice to ensure this is the case. A special snap-in function ensures that they take a firm hold of circlips, making it possible to fit rings easily without slipping. The precision tips used provide greater stability and a long service life. The set includes four pairs of pliers for fitting and removing for inner and outer rings. This allows circlips to be fitted and dismantled correctly in holes and on shafts and axles
- Application: For attaching and removing circlips in holes as well as on shafts and axles
 - 1 x Circlip pliers Classic with MagicTips® For inner rings (drill holes) (34689) J 1, 140 mm, 1 x Circlip pliers Classic with MagicTips® For inner rings (drill holes) (34690) J 2, 180 mm, 1 x Circlip pliers Classic with MagicTips® For outer rings (shafts) (34699) A 1, 140 mm, 1 x Circlip pliers Classic with MagicTips® For outer rings (shafts) (34700) A 2, 185 mm
