

Premium soldering station CDE-2BQA, incl. T245-A soldering iron

Improve your soldering quality in real time!

JBC innovates CDE station with the Soldering Assistant, the first system that measures the delivered energy during the soldering process. The Soldering Assistant is easy to use: select a cartridge, perform a soldering and save it as solder reference. All the soldering performed after will be compared with the solder reference, displaying information between them.

Why Soldering Assistant?

It will help to improve the soldering skills, to select the optimal temperature and cartridge and to have a more efficient and quality production. It comes with JBC Exclusive Heating System and the intelligent Sleep & Hibernation Modes.

This station is suitable for general electronic applications with a T245 General Purpose

Products for the electronic industry

Handle, perfect for both SMD components and for jobs with high power requirements, and it works with C245 Cartridge Range. It features all the Excellence Range benefits such as full control of soldering processes and remote work management.

Item no.	WL69786
Model	CDE-2BQA
Model line	Premium Line
Manufacturer	JBC
Manufacturer article no.	CDE-2BQA
GPSR manufacturer data	JBC Soldering SL Ramón y Cajal 3 ES-08750 Molins De Rei www.jbctools.com
Length	170 mm
Width	176 mm
Height	145 mm
Scope of delivery	1x CDE soldering station 1x T245 soldering iron (soldering tip not included) 1x instruction manual
Sales unit	1 piece
Content unit	1 piece
Tare weight	2.94 kg
Power	150 W
Voltage	230 V
Temperature range °C	90 – 450 °C
Temperature range °F	190 – 840 °F
Station (type)	soldering station
Communication ports	USB-B (Software PC / Firmware update)
Heating temperature range (to)	450 °C
ESD compliant	no
