

VE CAM mounted on double arm stand, incl. Clamp, 24 inch monitor

With this user-friendly digital Full HD microscope you can get started within minutes. You save time and effort when training your users. The employees can work quickly and efficiently.

Samples can be inspected and evaluated directly.

The VE Cam's high-quality optics provide excellent image quality, ensuring an easy defect detection.

Enhanced productivity features include 10 programmable presets. Users can configure and quickly recall their preferred 10 settings, such as image settings and function grids, timestamps and other options. This will help save time when changing topics and support consistency between different users. Up to 6 hotkeys for instant one-touch access to the most frequently used presets. The configurable interface allows the display the most frequently used settings directly on the screen.
