

Stripping pliers Stripmaster 10-14 AWG

IDEAL® Stripmaster® wire strippers are the industry standard for hand-held precision wire strippers. With one step, strong leverage and a unique precision blade, they deliver fast, accurate results while reducing operator effort. Custom Stripmaster® wire strippers can be equipped with your choice of grippers and blade sets for maximum flexibility. Optional accessories, such as a short-stop lock and a transparent wire stop, increase the tool's versatility and ensure consistent stripping lengths. The comfortable handles are color-coded to quickly identify compatible wire sizes - red handles for larger wires (10-14 AWG) and black handles for smaller wires (16-30 AWG). Made from robust die-cast zinc, these lightweight wire strippers are designed for maximum mobility and high productivity.

Item no.	WL71611
Manufacturer	IDEAL
Manufacturer article no.	45-2565

GPSR manufacturer data	IDEAL Industries International BV Franciscusweg 267 NL-1216 Hilversum www.idealind.com
Sales unit	1 piece
Content unit	1 piece
Colour	red
Material	Steel
Incl. battery	no
ESD compliant	no
