

High-Precision Heater Hose Set, NH

NH is the perfect tool to rework SMDs, such as 01005, quickly and safely, even under a magnifying glass. It is the best option to suit all requirements without affecting nearby components.

JBC Exclusive System enables the regulation of temperature and air flow at very low levels in order to avoid the movement of adjoining components.

It works exclusively with JNASE High-Precision Hot Air Station, and uses J125 Cartridge Range.

- Net weight: 0,31 kg (0.69lb)
- Package: 382 x 159 x 81 mm / 0.45 kg; 15.04 x 6.26 x 3.19 in / 0.98 lb.
- 1 NH High-Precision Heater Hose Set

Item no.	WL71747
Manufacturer	JBC
Manufacturer article no.	NH-A
GPSR manufacturer data	JBC Soldering SL

Products for the electronic industry
