Latchkey hexagonal ball end MagicRing® colored luminous 3.0mm (41973)

Increases your efficiency: Wiha MagicRing® holding function holds all hex screws without magnet.
Increases your efficiency: Quick selection of the required wrench size by color assignment.
Application: Suitable for screwing all hexagonal screws and lifting out recessed standard screws as well as inserting and screwing into horizontal, angled or deep blind holes.
The colored pin wrenches are quick and easy to find. What's more, thanks to the luminescent coating, they are easy to find even in the dark with the aid of a UV flashlight. This reduces the time needed to find lost pin wrenches and, when servicing equipment, reduces the risk of machine damage due to forgotten tools in the machine. Thanks to the MagicRing® holding function with spring steel ring, the pin wrenches hold all hexagonal standard screws perfectly in any position without a magnet. The hexagonal ball head of the pin wrenches enables effortless screwing at an angle of up to 25°.
For mechanical applications
Based on ISO 2936L.

- Blister packaging: No
- ESD Article: No
- Color: orange
- hexagon socket 1 (mm): 3 mm
- length pin wrench blade (short): 23 mm
- total length (mm): 128 mm
- with battery: No

Item no.	**WL72380**
Alternative article name	369R030F
Manufacturer	WIHA
Manufacturer article no.	41973

GPSR manufacturer data	Wiha Werkzeuge GmbH Obertalstraße 3-7 DE-78136 Schonach www.wiha.com
Sales unit	1 piece
Content unit	1 piece
Standards	Based on ISO 2936L.
Product series	369RF
VDE	no
ESD compliant	no
Packaging dimensions	piece
Hexagon socket	3 mm
Tool length	128 mm
