

## Hacksaw electric insulated with three saw blades 150 mm 280mm (43125)

---

Increases your efficiency: the fine-toothed saw blade enables a clean cut, for example on plastic pipes and metal cable ducts.

Facilitates handling: With the help of the plastic screw, the saw blade can be changed quickly and easily.

Facilitates handling: The ergonomic handle is suitable for both right-handed and left-handed users.

Reduces your costs: Durable and stable thanks to bimetal saw blade.

Offers you full protection: each tool individually tested at 10,000 V AC and approved for 1,000 V AC.

Application: For sawing plastic pipes, electrical installation pipes, cable ducts made of plastic or metal. Ideal for the field of application of electricians and electricians.

In electrical installation, electricians often have to resort to a hand saw for cutting pipes or cable ducts to length. Wiha has the perfect solution: the hacksaw electric. Thanks to the insulated handle, it offers full protection for work on live parts up to 1,000 V. Furthermore, thanks to the ergonomically shaped handle, the 300 mm long saw also fits comfortably in the hand of left-handed users. The set also includes two saw blades with a length of 150 mm as replacements. If the teeth are blunted, the saw blades of the electrician's saw can be changed quickly and easily. The plastic screw makes it easy to clamp and adjust the saw blade.

For electrical applications

- Blister packaging: Yes
- ESD Article: No
- Length saw blade: 150 mm

- Total length (mm): 280 mm
- with battery: No

<b>Item no.</b>	<b>WL72581</b>
