

## Torque tester Torque QuickCheck Set 4 pcs. incl. adapter blades, batteries and box 2.8Nm (42086)

Increases your efficiency: quick and easy check of your torque tool thanks to mobile, compact form.

Increases your safety: Regular checking of the torque tool guarantees safe and precise work with the correct torque value.

Saves time: LED traffic light symbolism shows test result quickly and easily understandable.

Application: Only suitable for all Wiha torque screwdrivers that can be set to the test value 2.8 Nm.

Using the wrong torque can have serious consequences, especially for delicate screwdriving tasks. Material damage, high rework costs and warranty claims are often the result. With the Torque QuickCheck from Wiha, the iTorque® and Torque Vario®-S torque screwdrivers can be quickly and easily tested for the accuracy of the set torque value before each use. Regular tool testing thus guarantees safe and precise work. The Torque QuickCheck also impresses with its user-friendly operation: to check the accuracy of the torque tool, the relevant Wiha torque screwdriver is inserted into the Torque QuickCheck

together with the enclosed adapter blades. The test result can then be read clearly from the LED traffic light. Thanks to its compact and handy design, the Torque QuickCheck is the ideal companion for mobile use.

- Blister packaging: Yes
- ESD Article: No
- Torque value fixed (Nm): 2.8 Nm
- Tolerance: 2
- with battery: Yes
