

Screwdriver SoftFinish® electric slimFix Pozidriv PZ1 x 80mm (39566)

Application: For working around live parts up to 1,000 V AC.

Standards: DIN ISO 8764-PZ.

When screwing by hand, the wrists and muscles are subjected to considerable strain over time. The particularly ergonomically shaped SoftFinish® screwdriver, which ensures optimum transmission of hand force, provides a remedy. With the long, slim handle sizes, small screws can be screwed in safely and quickly. For driving large screws, there are large-volume handle sizes that can be used to apply higher torques. In addition, the various handle sizes are adapted to the hand of screwdriving professionals, which is always the same size. The roll-off protection and the screw symbol printed on the end of the handle ensure efficient work. With Wiha slimTECHNOLOGY, specially developed for electrical applications, the protective insulation has been integrated into the blade to enable blades that are up to 33% slimmer. This means that even low-lying screw and spring elements can be reached effortlessly. The insulated screwdrivers are subjected to routine testing in accordance with the international IEC 60900 standard and enable safe working around live parts up to 1,000 V AC.

For electrical applications

Tested according to IEC 60900.

- Blister packaging: Yes
- ESD Article: No
- Pozidriv 1: PZ1
- Handle diameter: 30 mm
- Total length (mm): 191 mm
- Length blade visible: 80 mm
- with battery: No

Item no.	WL72667
Alternative article name	SB3241108001
Manufacturer	WIHA

Products for the electronic industry

Manufacturer article no.	39566
GPSR manufacturer data	Wiha Werkzeuge GmbH Obertalstraße 3-7 DE-78136 Schonach www.wiha.com
Sales unit	1 piece
Content unit	1 piece
Incl. battery	no
Standards	Tested according to IEC 60900., DIN ISO 8764-PZ.
Product series	3241
VDE	yes
Screw type	PZ1
ESD compliant	no
Packaging dimensions	piece
Screwdriver type	1000 V insulated
Blade length	80 mm
