Soft-face hammer set Safety with mixed impact heads 9 pcs. incl. box (44008)

Meets your demands: basic hammer equipment in the practical Wiha Safety set with interchangeable, differently hard impact heads ideally equipped for all applications.
Simplifies your work: easier work and optimum impact effect with reduced effort.
Reduces your costs: Each hammer part is available individually as a spare part.
Application: Comprehensive hammer set for all applications, especially for sensitive surfaces.
Contents: 832-38 Safety soft-face hammer orange/black (hard/medium soft)
Content: 831-3 Impact Head, black (medium soft)
Content: 831-9 Impact Head, white (very hard)
Content: 833-5 Square Impact Head, yellow (medium hard)
Content: 833-1 Square Impact Head, blue (soft)
Contents: 352 SW 6 hexagonal pin wrench, long, made of CV steel, through hardened, matt chrome plated.
In industry and trade, hammer heads of different hardness are often required for different applications. With the Safety soft-face hammer set, you are well equipped for all applications. The hammer set contains eight interchangeable hammer heads in round shape. With the help of the enclosed hexagonal pin wrench, these hammer heads can be

changed quickly and easily depending on the application. The Safety Hammer can be used to deliver dosed single blows to sensitive materials such as soft wood, plastics or aluminum as well as powerful blows in foundries and heavy industry. Furthermore, the Safety Hammer impresses with its high-quality hammer handle made of hickory wood with a particularly grippy surface. The hammer and the striking heads are stored in a robust and stable box. All components in the set can be purchased as spare parts.
GS-approved.
Contents:
