

L-key set in ErgoStar holder hexagonal ball end MagicRing® 10 pcs. luminous colored (41979)

Simplifies your work: Spherical head facilitates access to screws and allows you to work at an angle of up to 25°.

Increases your efficiency: Colored pin wrenches can be found quickly and easily - even in dark environments thanks to luminous paint with UV light.

Increases your efficiency: Wiha MagicRing® holding function holds all hexagonal screws without a magnet.

Increases your efficiency: Quick selection of the required wrench size thanks to color assignment.

Lowers your costs: Reduces "risk of forgetting" in a machine and resulting consequential damage.

Facilitates handling: Always the right wrench in the right place.

Application: Suitable for screwing all hexagonal screws and lifting out countersunk standard screws as well as inserting and screwing into horizontal, slanted or deep blind holes.

Footnote: MagicRing® from size SW3.

Who doesn't know this? With many pin wrench holders, it is awkward to remove individual wrenches or return them to the holder. But the Wiha ErgoStar now puts an end to this, because it solves this problem in an ingenious way. The rotation of a single pin wrench in the holder causes all the other wrenches to turn sideways at the same angle, enabling fast and convenient removal. A clamp in the holder ensures that the keys cannot fall out both when the holder is closed and when it is open. In addition, the colored pin keys can be found quickly and easily and, thanks to the luminous paint, are easy to find even in the dark with UV light. This reduces the time needed to find lost pin wrenches, and when servicing equipment, the risk of forgotten tools in the machine is reduced. Thanks to the MagicRing® holding function with spring steel ring, the pin wrenches hold all hexagonal

Products for the electronic industry

standard screws perfectly in any position without a magnet. The hexagonal ball head enables effortless screwing at an angle of up to 25°. The pin wrench set contains nine colored hexagonal pin wrenches in common sizes.

For mechanical applications

Based on ISO 2936L.

Contents:

- 1x pin wrench hexagonal ball head colored luminous 1.5mm (41894)
- 1x L-key hexagonal spherical head colored luminous 2.0mm (41895)
- 1x L-key hexagonal spherical head colored luminous 2,5mm (41896)
- 1x L-key hexagonal spherical head MagicRing® colored luminous 3,0mm (41973)
- 1x L-key hexagonal spherical head MagicRing® luminous colored 4.0mm (41974)
- 1x L-key hexagonal spherical head MagicRing® colored luminous 5,0mm (41975)
- 1x L-key hexagonal spherical head MagicRing® colored luminous 6,0mm (41976)
- 1x L-key hexagonal spherical head MagicRing® colored luminous 8,0mm (41977)
- 1x pin wrench hexagonal ball head MagicRing® colored luminous 10,0mm (41978)
- 1x ErgoStar holder
 - Blister packaging: No
 - ESD Article: No
 - with battery: No

Item no.	WL72852
Alternative article name	369RE9F
Manufacturer	WIHA
Manufacturer article no.	41979
GPSR manufacturer data	Wiha Werkzeuge GmbH Obertalstraße 3-7 DE-78136 Schonach www.wiha.com
Length	234 mm
Width	110 mm
Sales unit	1 piece
Content unit	1 piece
Standards	Based on ISO 2936L.
Product series	369RF
VDE	no
ESD compliant	no
Packaging dimensions	set
