

L-key set in ProStar holder hexagonal ball end with short shank 10 pcs. matt chrome plated in blister (35481)

Simplifies your work: ball head facilitates access to screws and allows working at angles up to 25°.

Increases your efficiency: Improved accessibility due to short leg.

Protects your health: Reduces the risk of injury by increasing the hand working space.

Facilitates handling: Sliding function for one-handed opening of the holder and easy, quick removal.

Application: Especially for screws that are difficult to access and for confined spaces.

Extra: Increase of hand working space of more than 30% and thus reduction of the risk of injury to knuckles and fingertips due to 95° bend of the pin wrench. Better accessibility by reducing the pin wrench head height by up to 15%.

Extra: Spherical head allows screwing at an angle of up to 25°.

Extra: Space-saving ProStar allows easy removal of each individual wrench without moving others.

Blade: chrome vanadium steel, through hardened, matt chrome plated.

In accordance with ISO 2936L.

Contents:
