

Digital microscope FRONT, black

FRONT is an intelligent and user-friendly digital microscope that uses software familiar from other TAGARNO microscopes and has an extensive range of intelligent and intuitive software applications.

However, what makes it stand out is its unique design. Regardless of the working depth or magnification level selected, the microscope produces crisp, stable images that allow users to perform accurate, high-quality analysis without being disturbed by nearby movement.

- Lens options: +3, +4, +5, +10, +25, +50
- Camera resolution: FHD 1080p
- Zoom: 30x optical
