

Pica GEL signal marker, black

Pica GEL signal marker

- The perfect replacement for tube markers
- Very easy and effortless handling: No sweaty squeezing of the tube
- Time-saving: Marking is much faster than with a tube
- Highly economical: 1 Pica GEL replaces up to 4 tubes of 50ml each
- Marks on both smooth as well as on rough materials, whether light or dark, dry or wet, rusty or oily
- Highly permanent, after a short drying phase
- Extremely rich in contrast - even on a dark background
- Weatherproof & lightfast - ideal for outdoor use
- Marked even under water
- Variable line width of 2-8mm possible
- Practical quiver saver with integrated sharpener for finer markings
- High-quality rotary mechanism
- Temperature-resistant up to approx. 1,000⁰ Celsius, colour: black

item number	WL73327
model	Pica GEL
model line	Pica GEL
manufacturer	PICA
manufacturer item number	8083
length	154 mm
width	25 mm
height	18 mm
order unit	1 piece
content unit	1 piece
Font color	black
type of packaging	single pack
