ESD transport roller

AUER Packaging's ESD transport trolley makes moving ESD plastic containers from A to B really easy. Its basic dimensions of 60x40 cm also make it possible to transport two 40x30 cm containers. During transport, the electrically conductive material reliably protects sensitive electronic components from electrical charges.

- Electrically conductive material
- High-quality, smooth-running wheels
- Very stable, 100 kg load-bearing capacity
- Matched to Euro dimensions
- ESD rubber wheel
