

1-Port all-round soldering station 100 W (AC 24 V)

- Soldering station including mains cable
- without further accessories
- for use with soldering tips of the T39 series FH 215-81 Tool holder A 5038 Cleaning sponge A 1561 Metal mesh
- Fast heating and thermal recovery
- accuracy of the tip temperature is ± 3 °C
- Highly visible display showing preset setting as well as tip sensor and preset temperature
- Display angle adjustable for easy viewing
- Built-in tip sensor (not included) makes it possible to use auto-sleep and auto-shutoff without connecting the station and iron holder.
- The soldering station can also be connected to a PC with the appropriate software, which can be used to record the set tip temperature and the temperature curve of the tip.
- Calibration/correction with the PC software is possible
- Mobile basic soldering station
- Informative display

- Infrared communication with the HAKKO soldering tip thermometer
- Temperature adjustment tip measurement <> soldering station
- Automatic auto-sleep and shutdown function
- Ergonomically optimal handling
- Optimum temperature change and heat-up behaviour

item number	WL74371
model line	FX
manufacturer	HAKKO
manufacturer item number	FX 971-311
GPSR manufacturer information	TBK - Technisches Büro Kullik GmbH Industriestrasse 27 DE-56276 Großmaischeid www.kullik.com/
length	93 mm
width	126 mm
height	123 mm
scope of supply	1x soldering station incl. mains cable (FX 971-311)
order unit	1 piece
content unit	1 piece
power	100 W
voltage	24 V
type of tip	Active
temperature range °C	50 – 450 °C
station type	desoldering station, soldering station
temperature stability °C	3
ESD safe	yes
