Cartridge Optimum, 30cc, black

Optimum® cartridges feature ZeroDraft™ walls with uniform internal diameters that ensure airtight sealing with the plugs and accurate and consistent fluid dispensing, eliminating blow-by, pressure deviation or contamination issues.
Nordson EFD cartridges are available in 3cc, 5cc, 10cc, 30cc, 55cc and 70cc sizes and are molded from a proprietary polypropylene compound that provides exceptional clarity and chemical compatibility.
The 70cc cartridges are our largest size. They allow production lines to run longer with fewer fluid changes, reducing downtime. These cartridges are ideal for electronic applications such as underfill, potting and conformal coating.
Nordson EFD's cartridges and plugs are manufactured in our own certified silicone-free facilities in the USA and are certified for industrial use.

Item no.	**WL74415**

Manufacturer	NORDSON EFD
Manufacturer article no.	7366058
