

Multifunctional electrician's pliers, metric model, covered with plastic, black atramentized, 200 mm

Smart stripping: large capacity range, sharply ground stripping profiles and intuitive positioning. Innovative cutting geometry: easier cutting especially of flat cables. Hybrid design: as flat as needle nose pliers, as wide as combination pliers for high stability with good accessibility. Precisely ground stripping profiles for solid conductors from 0.75 - 6 mm² and fine-stranded conductors from 0.5 - 4 mm². Accurate positioning of the conductor by means of positioning bars. Easy cutting of multi-core copper and aluminum cables up to Ø 15 mm (1/2"). Wide, cross-toothed gripping surfaces for twisting cores. Milled groove for secure holding and pulling of small workpieces such as nails. Convex gripping surface on one side for secure gripping of flat material and burner hole for gripping round material. Distinctive outer edge for deburring empty tubes.
