

Temperature measuring device DTM 110 with digital display

Temperature measuring device DTM 110 with digital display. The DTM 110 has a patented sensor head (K-type) with Chromel- Alumel sensor and is suitable for precise measurements even on very fine soldering tips. The scope of delivery includes the temperature measuring device (ODTM113), the sensor head (ODTM101) with sensor wire (ODTM102) and the calibration adapter (ODTM105).

Item no.	WL81283
Model	DTM 110
Manufacturer	ERSA
Manufacturer article no.	ODTM110C
Sales unit	1 piece
Content unit	1 piece
Incl. battery	no
Digital display	yes
ESD compliant	no
