

Safety shoes S3, PUMA SAFETY, CASCADES LOW, black

HEAVY DUTY! The Scuff Caps series is one of the most successful safety shoe concepts, specially designed and developed for the construction sector, mechanical engineering and industry. Here, a high load-bearing capacity of the shoe meets an almost unparalleled wearing comfort. This is an absolute must, especially in the construction sector, as shoes are often worn for eight, nine or more hours. The CASCADES LOW with its black upper made of greased full-grain cowhide and hard-wearing Cordura® not only impresses with its clear design, but also with numerous features. The EVER.FLEX decoupling point integrated into the heel helps the foot to find the ideal contact between heel and ground with every step, individually adapted to the wearer's weight, height and stride length. The VOLUME PLUS concept provides an extra portion of comfort with its special last shape that creates more space, especially for small toes.

- with plastic toe cap and flexible L-protection – penetration protection
- with overcap
- Greased full-grain cowhide upper material
- Shank edge padding made from Cordura® by DuPont®
- Closed pleated tongue, softly padded
- inner lining made of breathable functional mesh lining absorbs and releases moisture, dries quickly, for a pleasant climate and high wearing comfort
- removable, anatomical footbed with ball heel
- rubber sole scuff caps HRO with EverFlex decoupling point - 300°C heat-resistant
- Oil and petrol resistant, antistatic

- pull-on loop
- Width 10

Article no.	WL81617
Manufacturer	PUMA
Manufacturer article no.	640720202000043
