ESD safety shoes S1P, PUMA SAFETY, VELOCITY 2.0 LOW, blue

NEXT LEVEL OF CUSHIONING With the next generation of the MOTION PROTECT line, PUMA SAFETY has once again taken the pulse of the times. Behind the design-award winning look lies a whole power package of innovative features and comfort. Thanks to the exceptional sole construction with a double-foamed midsole made from IMPULSE.FOAM in different densities, the VELOCITY 2.0 BLUE LOW is ideal for long working days with lots of standing and walking. The IMPULSE.FOAM® in the midsole not only absorbs impact forces, but also actively returns up to 55% of the energy to the wearer. The non-slip rubber outsole (HRO, SRC), which is heat-resistant up to 300°C, provides safety with every step and is also extremely hard-wearing. Thanks to the evercusion®BA footbed, the foot is supported in its natural rolling movement. The highly breathable evercushion® foam wicks away perspiration and ensures a pleasant microclimate in the shoe. The anatomical shape with longitudinal arch support protects joints and ligaments from injury. The VELOCTIY 2.0 BLUE LOW is also equipped with an elastic quick lacing system. This means that the wearer no longer needs to worry about the perfect shoe binding or open shoe laces. Each shoe box also comes with a pair of conventional laces.

- Protection: fiberglass toe cap, metal-free, flexible FAP penetration protection
- Upper: durable microfiber with TPU reinforcements
- Plus: metal-free, ESD, toe cap and heel protection, quick lacing system, additional pair of
- laces in the box

• Footbed: evercushion BA
• Lining: BreathActive functional lining
• Sole: MOTION IMPULSE - 300ḞC heat-resistant, non-slip rubber outsole with IMPULSE.FOAM midsole in two different densities for outstanding cushioning, stability and comfort

Item no.	**WL81858**
Manufacturer	PUMA
Manufacturer article no.	643850300000040
GPSR manufacturer data	Puma Europe GmbH PUMA Way 1 DE-91074 Herzogenaurach https://eu.puma.com
Sales unit	1 pair
Content unit	1 pair
Colour	blue
Protective cap	yes
Type of shoes	low shoe
Safety class	S1P
Shoe width	W11
Shoe size EU	40
ESD compliant	yes
Risk category (PPE regulation)	Category 2
