

## ESD safety shoes S1P, ladies, TWIST PINK WNS LOW, gray

GIRLS, IT'S TIME FOR NEW SAFETY SHOES! The TWIST PINK WNS LOW from the ALBATROS® LADIES LINE has a fresh and innovative look. Inspired by current running shoes, but discreet with sporty and stylish lines. The safe choice for women who don't want to compromise on their safety footwear. The upper of the TWIST PINK WNS LOW is made of hard-wearing textile fabric with FITFRAME® elements. FITFRAME® technology makes it possible to apply reinforcing elements seamlessly directly to the base material. This eliminates the need for seams and achieves a high level of flexibility and resistance, especially in the crease areas. The very flexible SportSafety sole combination, consisting of an EVA midsole and a newly developed HRO rubber outsole, offers the wearer the best possible comfort. The profiling of the outsole guarantees slip resistance and excellent grip on ladders. The integrated cushioning elements provide sufficient protection for the joints and the foot as a whole against impact. The shape of the last and the fiberglass toe cap are spacious, but adapt perfectly to the shape of the female foot.

- Protection: steel toe cap, metal-free, flexible FAP penetration protection
- Upper: hard-wearing textile fabric with sandwich mesh, FITFRAME
- Plus: ESD, reflective elements, abrasion-resistant toe cap protection, comfortable shaft and tongue padding, soft, shock-absorbing EVA midsole
- Lining: breathable mesh functional lining
- Footbed: anatomically shaped footbed
- Sole: Ladies HRO - 300°C heat-resistant, non-slip rubber outsole
