

ESD safety shoes S3, BUSINESS CSL LOW, black

SAFETY SHOES IN BUSINESS-CASUAL-LOOK The safe choice for the office, warehouse and production. With its slim shape, the BUSINESS CSL LOW is indistinguishable from a business shoe. It goes just as well with a suit as it does with work trousers and meets safety class S3 with its fiberglass toe cap, flexible FAP® penetration protection and soft, smooth full-grain cowhide. In addition to the slim shape, the flat sole concept ensures the perfect business look. The PU/PU material combination provides excellent cushioning and flexibility. The special sole profile offers reliable slip resistance in accordance with category SRC. The soft midsole ensures optimum cushioning over the entire surface of the foot and perfectly combines stability and flexibility. Thanks to its ESD equipment, the BUSINESS CSL LOW is also indispensable in ESD-sensitive areas. The breathable comfit® AIR footbed provides extra comfort. It has shock-absorbing elevations in the heel and ball area as well as longitudinal arch support. This supports the natural posture of the foot in the shoe and stimulates the muscles when walking. The non-slip textile surface is odor-resistant, moisture-absorbent and washable at 30°C.

- Protection: fiberglass toe cap, metal-free, flexible FAP penetration protection
- Upper: smooth full cowhide
- Plus: metal-free, ESD, comfortable shaft and tongue padding
- Footbed: removable, anatomically shaped COMFIT AIR insole
- Lining: breathable 3D functional lining
- Sole: CASUAL SAFETY - flexible, profiled, non-slip and abrasion-resistant DUO-PU outsole

Item no.	WL82029
Manufacturer	ALBATROS
Manufacturer article no.	646100200000042
GPSR manufacturer data	Albatros GmbH Koggenweg 1 DE-59557 Lippstadt www.albatroswork.com
Sales unit	1 pair
Content unit	1 pair
Colour	black
Incl. battery	no
Type of shoes	low shoe
Safety class	S3
Shoe width	W11
Shoe size EU	42
