ESD safety shoes S1P, BREEZE QL IMPULSE LOW, black

The revolution in safety footwear! Inspired by innovative running shoes, ALBATROS® is launching dual.IMPULSE, the first safety shoe line with a directly injected midsole consisting of two layers of different IMPULSE.FOAM densities. IMPULSE.FOAM is the anti-fatigue technology in your safety shoe. This intelligent sole concept offers everything: maximum cushioning with energy return as well as outstanding stability and long-lasting comfort. Hardly distinguishable from a sports shoe, the metal-free LIFT RED IMPULSE LOW has an upper made from hard-wearing 3D textile fabric. It is equipped with a fiberglass toe cap and metal-free, flexible FAP® penetration protection, meets ESD requirements and has a breathable functional lining. The newly developed, anatomically shaped, moisture-regulating ALBATROS® comfit® AIR insole with a non-slip textile surface provides further comfort. The comfit® AIR has elevations in the heel and ball area as well as longitudinal arch support, which support the natural position of the foot in the shoe. This relieves the foot and stimulates the muscles when walking.

- Protection: fiberglass toe cap, metal-free, flexible FAP® penetration protection
- Plus: pull-on loop for easier entry, particularly lightweight
- Upper: high quality smooth leather with TPU strengthening
- Lining: breathable functional lining
- Footbed: removable, anatomically shaped COMFIT® AIR insole
- Sole: DUAL.IMPULSE - 300°C heat-resistant, non-slip rubber outsole with midsole made from IMPULSE.FOAM® in two different densities for outstanding cushioning, stability and comfort
- Material: Mesh

Item no.	WL82175
Manufacturer	ALBATROS
Manufacturer article no.	647528241000036
GPSR manufacturer data	Albatros GmbH Koggenweg 1 DE-59557 Lippstadt www.albatroswork.com
Sales unit	1 pair
Content unit	1 pair
Colour	black
Protective cap	yes
Type of shoes	safety shoe
Safety class	S1P
Shoe width	W11
Shoe size EU	36
ESD compliant	yes
Risk category (PPE regulation)	Category 2
