

Safety shoes S3, TIMBER MID, brown

DYNAMIC MULTIFUNCTIONAL SHOE! The trekking sector was the model for the design and last development. In addition to a sporty look, maximum comfort and maximum convenience with minimum strain on the foot - even over long periods of movement - have top priority. The upper of the TIMBER MID is made from oiled, soft full-grain cowhide with abrasion-resistant textile inserts. The non-slip, self-cleaning sole profile of its TPU outsole has optimum liquid-displacing properties (windshield wiper effect). Standing water is diverted to the sides of the shoe to prevent aquaplaning. The sole is also oil and petrol resistant and antistatic. The BreathActive functional lining, which extends through to the toe area, ensures dry feet and comfort even on particularly long working days. Perfect protection of the wearer - always the focus of all ALBATROS® developments - is one of the most important aspects of this line.

- Protection: steel toe cap, metal-free, flexible FAP penetration protection
- Upper: oiled, soft full-grain cowhide with textile inserts
- Plus: closed dust flap
- Footbed: removable, anatomically shaped COMFIT insole
- Lining: breathable 3D mesh functional lining

- Sole: TREKSTAR WORK - PU/TPU sole with overcap and shock absorber

Item no.	WL82565
Manufacturer	ALBATROS
Manufacturer article no.	631340400000040
GPSR manufacturer data	Albatros GmbH Koggenweg 1 DE-59557 Lippstadt www.albatroswork.com
Sales unit	1 piece
Content unit	1 piece
Colour	brown
Incl. battery	no
Protective cap	yes
Type of shoes	safety boots
Safety class	S3
Shoe width	W11
Shoe size EU	40
ESD compliant	no
Risk category (PPE regulation)	Category 2
