

## Soldering tip, chisel-shaped, straight, 1.2 x 0.4 mm, C250432E

This cartridge was developed with a thicker iron layer, which makes this tip ideal for hard and repetitive work in mass production. A thicker iron layer reduces thermal efficiency. The C250 cartridges have been specially developed for use with the ALE250 automatic feed soldering iron and the AP250 manual feed soldering iron.

These cartridges can be aligned using the anti-rotation screw built into the tool.

Thanks to the intelligent heat management, they last 5 times longer than other brands.

- Weight: 0.009 kg
- Packaging: 127 x 31 x 31 mm / 0.02 kg

item number	WL82854
model	C250432E
manufacturer	JBC
manufacturer item number	C250432E
GPSR manufacturer information	JBC Soldering SL Ramón y Cajal 3
