

ESD polo shirt PRO PLUS, 210g/m², light gray/black, XL

The SafeGuard ESD polo shirt PRO PLUS in light gray/black is not just a piece of work clothing, but a statement of professional competence and safety. With its striking black collar and the ESD logo on the breast pocket, it combines style and functionality. The 210g/m² fabric weight makes it comfortable to wear, while the integrated carbon fibers give the shirt its dissipative properties. The sleeves with black cuffs and the practical breast pocket make this polo shirt an indispensable companion in electronics production. It meets the strict requirements of DIN EN 61340-5-1 and therefore guarantees reliable protection against electrostatic discharge. The stylish polo collar and button placket give the shirt a professional look. Made from high-quality materials - 50% cotton, 47% polyamide and 3% carbon fiber - the ESD polo shirt PRO PLUS offers an excellent combination of comfort and functionality. With a discharge resistance of 10⁵ - 10⁷ ohms, this shirt sets new standards in terms of safety and performance. Get the SafeGuard ESD polo shirt PRO PLUS now and show your expertise in ESD protection and electronics production. A must-have for anyone who appreciates quality, style and safety.

- Washable up to 40°C
