

Microtip precision swabs

CM502

Micro tips™ are designed for precision applications that require the highest accuracy. The conical, porous tip made of polyvinylidene fluoride is ideal as a stylus or pick for areas with tight tolerances. The tip is attached to the handle without the use of potentially contaminating adhesives or glues. These swabs are ideal for applying adhesives and lubricants

- Porous precision cleaning tools with polyvinylidene fluoride tip
- Low extractables and particulate content
- Compatible with most solvents, adhesives, coatings and inks
- The conical tip with a diameter of 1.925 mm can be used as a pen
- Made without adhesives or glues
- Total length of the swab: 17.0 cm
- Material of the head: porous polyvinylidene fluoride
- Width and length of the head: 1.93 mm x 15.7 mm
- Handle material: polypropylene

- Width and thickness: 3.3 mm x 3.3 mm

Item no.	WL83454
Manufacturer	CHEMTRONICS
Manufacturer article no.	CM502
Length	170 mm
Width	3.3 mm
Height	3.3 mm
Sales unit	1 PU
Content unit	1 Packaging unit
Colour	white
Incl. battery	no
ESD compliant	no
