

Cleaner Isopropanol (IPA), 400ml

The ECS Universal Cleaner Isopropanol (IPA) in a 400 ml spray can is a mild and universally applicable cleaning agent with a purity of over 99.9%. It is ideal for the safe removal of dirt and grease deposits. Due to its ambivalent character, it can effectively remove grease and oil as well as ionic contaminants without attacking the most common materials. After a short time, it evaporates completely without leaving any residue. With ECS Universal Cleaner Isopropanol, you have a reliable cleaning agent for a wide range of applications.

- Universal and mild cleaner with a purity of >99.9%
- ISOPROPANOL is a universal and mild Cleaner with excellent wetting and dissolving ability
- This guarantees quick and reliable removal of contaminations such as dust, fingerprints, oil and all kind of light dirt
- ISOPROPANOL does not attack any material and evaporates very quickly without leaving any residues
- Effective cleaning of electrical and mechanical parts, cleaning of soldering residues and
