

Electro-Degreaser, 400ml

The ECS Electro-Degreaser is a highly effective cleaner in a practical 400ml spray can. Specially developed for electrical devices and components, it effortlessly removes greasy and oily soiling. Thanks to its balanced solvent composition, it effectively removes wax and other stubborn dirt. It also has a moisture and water-displacing effect. Ideal for thorough cleaning of electronic devices.

- Strongly effective cleaner especially for removing greasy and oily soiling
- For electrical devices and components
- Due to its balanced solvent composition, it effectively removes wax and other heavy soiling
- Has a moisture and water displacing effect
- Spray can
