

## Sprayoil, 400ml

---

The ECS lubricating oil/anti-corrosion spray oil in the 400 ml spray can is a highly effective, low-viscosity lubricant with excellent emergency running properties. The lubricating film is durable, does not resinify and reliably protects against corrosion by repelling water and moisture. The spray oil is effective in a wide temperature range from -40 °C to +170 °C and complies with ISO VG 10. Ideal for a wide range of applications to provide lasting protection for machines and tools and maintain their performance.

- High-grade, acid-free Lubricant and Anticorrosion Agent
- SPRAYOIL is a powerful, very thin, acid-free lubricant with excellent emergency running properties
- Its lubricating film is very durable and does not become gummy
- SPRAYOIL repels water and moisture and ensures durable and reliable corrosion protection
- SPRAYOIL remains effective within a wide temperature range from -40°C to +170°C and meets the requirements of standard ISO VG 10
- Spray in aerosol can

- Content: 400 ml
