# Kabelglide, 400ml

Make your electrical installation work easier with the ECS cable glide lubricant! This excellent product enables cables and wires to be pulled into electrical installation conduits without any problems. Thanks to its unique properties, it does not dry out, does not stick together and acts as a moisture buffer. The lubricant is resistant to a wide range of temperatures, does not attack materials and is also non-toxic.
With the 400 ml spray can and the 70 cm long spray tube, you can easily spray the inside walls of installation pipes.

- Excellent lubricant for easy insertion of cables and wires into electrical installation pipes.
- Does not dry out, does not stick, is water-repellent and therefore also acts as a moisture buffer.
- Is resistant within a wide temperature spectrum
- Does not attack materials and is non-toxic
- Includes 70cm long spray tube for easy spraying of the inner walls of installation pipes
- Spray in aerosol can
- Content: 400ml
