

Urethane - Clear, 400ml

Discover the ECS urethane polyurethane varnish in a practical 400 ml spray can! This particularly resistant protective and insulating varnish for electronics offers excellent insulating properties and high surface and volume resistances. Thanks to its good dielectric strength, low dielectric constant and loss factors, it is the ideal choice for demanding applications. The transparent varnish is resistant to moisture, diluted acids and alkalis and retains its elastic, abrasion and adhesion properties even at extreme temperatures from -40° C to +120° C. The chemical cross-linking during the drying time ensures that the coating offers reliable protection even under damp or aggressive conditions. Convince yourself of the quality of ECS Urethane - Polyurethane Varnish and get your can for optimum electronics protection now!

- Particularly resistant protective and insulating varnish for electronics
- URETHANE-CLEAR is a transparent, air-drying, one-component polyurethane varnish with excellent insulating properties
- It offers high surface and volume resistance, good dielectric strength, low dielectric constant and loss factors

Products for the electronic industry

- URETHANE-CLEAR is resistant to moisture, diluted acids and alkalis
- The paint is elastic, abrasion and adhesive resistant. It has permanently good adhesion in the temperature range from -40° C to +120° C.
- During the drying period, the paint chemically crosslinks, so that it provides excellent protection even in damp or aggressive environmental conditions
- Spray can
- Contents: 400 ml

Item no.	WL83862
Manufacturer	ECS
Manufacturer article no.	771.400.000
GPSR manufacturer data	ECS AG Talstrasse 35 CH-8808 Pöfikon www.ecsag.com
Sales unit	1 piece
Content unit	1 piece
Incl. battery	no
ESD compliant	no
