

ELIX Duster Top - non-flammable, 400ml

The ECS ELIX compressed gas spray is a non-flammable cleaning spray in a 400 ml aerosol can, ideal for vending machines and devices in the electronic and technical sector. It efficiently cleans inaccessible areas, removes dirt deposits down to the finest dust particles and increases the operational safety and functionality of the devices. Thanks to its high level of purity and efficiency, device failures due to soiling are greatly reduced. Cleaning can be carried out quickly and efficiently thanks to the spray head and pipe. With the ECS ELIX compressed gas spray, you can ensure clean and reliable appliances.

- For machines and devices in the electronic and technical sectors
