Label-off, Label remover, 400ml

The ECS Label-off label remover in the 400 ml spray can enables the safe and quick removal of adhesive labels. The highly effective solvent penetrates the adhesive label and removes the adhesive force of the glue so that the labels can be removed effortlessly after 2 - 4 minutes of exposure time. LABEL-OFF is reliably suitable for use in industry, commerce and trade. Please note that sensitive plastics can be attacked by the strong effect. Do not use on Plexiglas, acrylic glass and CD covers. A test on a small or non-visible area is recommended before large-scale use. With the ECS Label-off label remover you have an effective product at hand to remove annoying labels quickly and easily.

- Safe and quick removal of adhesive labels
- LABEL-OFF enables the easy and problem-free removal of adhesive labels from paper
- Reliable for use in industry, trade or crafts
- The highly effective solvent penetrates the adhesive label and breaks the adhesive strength of the adhesive
- The labels can be removed in one go after 2 - 4 minutes - there is no need for time-consuming scratching off of the labels

• Due to the strong effect, some sensitive plastics are attacked. Do not use on plexiglass, acrylic glass and CD cases
• If in doubt, we recommend testing on a small or invisible area
• Spray can
• Contents: 400 ml
