

ESD bag, pink, dissipative, 250 x 250 mm, 60µm

The pink ESD bags from SafeGuard are the ideal solution for the professional packaging of products within an ESD protection zone. With a size of 250 x 250 mm, they offer sufficient space and primarily serve as dust protection. The bags are made of polyethylene and bear the ESD and recycle symbol as well as the lot number and the SafeGuard logo. They are amine-free, weldable and permanently dissipative. One pack contains 100 of the pink bags with a film thickness of 0.06 mm. The properties of the packaging are dissipative, but they are not resealable. These ESD bags comply with ESD requirements and therefore guarantee safe protection for your products in sensitive environments.

- Polyethylene pink with ESD and recycle symbol, LOT no.
- amine-free, weldable, permanently dissipative

Item no.

WL83998

Manufacturer

SAFEGUARD

Products for the electronic industry

Manufacturer article no.	SG-BE-ROSA-ABL-0,06-250X250
GPSR manufacturer data	Weidinger GmbH Hertha-Sponer-Str. 1a DE-82216 Gernlinden
Width	250 mm
Height	250 mm
