

EarProtect reusable earplugs | silicone, cord, SNR value 32 dB, 100 pairs

DS Safetywear presents the ultimate EarProtect reusable earplugs for optimum hearing protection. These earplugs made of lamellar silicone offer an impressive SNR value of 32 dB and are available in bright orange. Thanks to the practical cord, they are easy to use and help to prevent the loss of earplugs. Despite their reusability, they guarantee maximum safety and comfort at all times. Make sure your ears are perfectly protected with EarProtect earplugs from DS Safetywear!
