

ESD table mat set 900 x 600mm

The TMBK ESD table mat set is designed to safely dissipate static electricity to prevent discharges that could damage integrated circuits and other sensitive electronic devices.

- The two-layer ESD table mat serves as a controlled path for the dissipation of static electricity. The dissipative top layer slows down the discharge, while the conductive bottom layer safely conducts it to ground, protecting sensitive electronics from sudden electrostatic discharges.
- Excellent resistance to various elements such as oils, greases, common solvents and hot solders. This resistance increases the durability of the mat and ensures its long-term effectiveness in a variety of environments.
- The anti-reflective surface improves visual comfort, but can also contribute to work accuracy and efficiency.

Item no.

WL85205

Products for the electronic industry

Manufacturer	JBC
Manufacturer article no.	TMB-KA
GPSR manufacturer data	JBC Soldering SL Ramón y Cajal 3 ES-08750 Molins De Rei www.jbctools.com
Length	900 mm
Width	600 mm
Sales unit	1 piece
Content unit	1 piece
Colour	grey
Material	Permanently elastic 100% PVC-FREE and PHTHALATE-FREE Two layers: dissipative and conductive RoHS compliant
Incl. battery	no
Typical surface resistance (Rpp)	$10^6 - 10^8 \Omega$
ESD compliant	yes
